

WEEK LONG TRADING EXPERIENCE

18 to 22 May 2015

LEARN FOCUS TRADE

SPEND A WEEK AWAY FROM ANY DISTRACTIONS ALLOWING YOU TO TRADE AND LEARN FROM EARLY MORNING TILL LATE AT NIGHT

Are you a novice with the dream of trading for a living, supplementing your income?

or

A seasoned trader who needs to refine his/her skills, discipline and trading psychology?

**Break away from all distractions and
trade for five uninterrupted days!**

Traders with over 30 years combined trading experience will be there to guide, coach, teach and support you while we execute live intraday trades on various markets according to tried and tested strategies and stringent money management rules using live accounts. You will make up your own mind as to whether you will execute trades with us using your own trading account.

While you are trading you will also learn, amongst other things:

- ✓ Trading strategies for various markets using various time frames.
- ✓ Money management principles.
- ✓ Trading psychology.
- ✓ Advanced technical tools.
- ✓ How to minimise risk.

Each day's events are designed to give you ample time to learn, trade and relax. A detailed schedule will be sent to you on request but basically a typical day is designed to get you trading as often and as profitably as possible.

This trading week is for you!

Following an early coffee/tea there will be time to setup your trading plan for the day before the trading commences. This will include:

Daily Preparation Session

- ✓ Updating the relative strength matrix on currency pairs so we start the day knowing which currencies are the strongest and which are the weakest. This builds our daily foundation and already moves the odds in our favour for the day.
- ✓ Determine the market trends and price targets in various time frames for international indexes and commodities.
- ✓ Determine the times for the fundamental news of the day and discuss the potential impact on various markets.

- ✓ Decide on position sizing and risk management.
- ✓ Determine entry levels for triggers to trade.
- ✓ Determine retest levels in order to anticipate levels of support and resistance.
- ✓ Identify and discuss some of the best traders in the world and link your personal trading account to them so that when they trade you trade automatically.

Daily Trading Sessions

There are three trading sessions per day, each lasting about two hours depending on market volatility. You will watch us execute trades according to the strategies and you will have the choice to follow or not using your own trading account.

The trading sessions will be followed by some free time but you will have the opportunity to attend workshops designed around learning the strategies traded and other core aspects of trading, such as trading psychology, risk management and trading discipline.

To RSVP for this once in a lifetime opportunity or for more information, send an email to warren@thetradersplace.co.za

“The secret to being successful from a trading perspective is to have an indefatigable and an undying and unquenchable thirst for information and knowledge.” Paul Tudor Jones

Venue and Costs

This week long trading experience will be held at the [Travellers Nest, 262 Buffalo Road, Hennospark, Centurion](#). We will begin at 06:00am on the morning of 18 May 2015 and look forward to a great week of learning, successful trading and sharing knowledge.

Accommodation is available at the venue for those who are traveling from far. Trading will be held in the conference facility at Travellers Nest and we have been assured of adequate internet supply.

The fee for the entire week, including lunch, will be R 14 950 for five days. For trading couples sharing, a fee of R28 000 is payable.

Terms are strictly payment in advance, as bookings, internet, etc have to be confirmed with the venue.

Our aim is that the trading profits generated during the week will assist in recouping the cost of the training and trading. It’s a win-win!
